MTB Establishes Charitable Foundation

GREENWOOD VILLAGE, Colo. – MTB Project Management Professionals Inc. has announced the formation of the MTB Foundation to better facilitate the company’s charitable efforts and to enhance the focus of its longstanding commitment to giving back to the community.

The MTB Foundation will support domestic and international charities and will provide a medium through which the company and its employees can create opportunities for civic engagement and to be “part of the solution” in communities from Denver to South America, according to Julie Schandle, the foundation’s President of Domestic Giving.

“MTB has held a strong charitable philosophy and commitment to giving back since its inception in 1994,” Schandle said. “With the creation of the MTB Foundation, we will be able to take a programmed approach to our charitable work and really increase our outreach.”

In addition to Schandle, the MTB Foundation’s board officers are Veronica Rodriguez, President of International Giving; Kathryn Bondesen, Vice President; Andrew Conover, Vice President; and Michelle Bahl, Secretary/Treasurer.

MTB Foundation – 2-2-2-2-2

MTB's past charitable efforts have benefitted organizations such as the Colfax Community Network, the Denver Rescue Mission, Denver Voice, the Autism Society of America, the Intermountain Humane Society, Haven's Hope, the Roundup Fellowship, the American Red Cross, the National Multiple Sclerosis Society, the Leukemia and Lymphoma Society, the Salvation Army, the Muscular Dystrophy Society, the Humane Society of America, and the Susan G. Korman Breast Cancer Foundation. MTB, which does extensive work in Peru and other Latin American countries, has directly assisted communities there by providing prenatal medical supplies to women in impoverished villages, helping local youth sports organizations, and donating to local orphanages and hospitals.

MTB Project Management Professionals is a leading international supplier of project and construction management services to the mining, environmental remediation, and industrial/commercial construction industries. The company also offers important ancillary services, such as mitigation and resolution of construction claims, financial analysis and due diligence, feasibility study preparation and review, logistics management, and project-related community relations.
